About

UI/UX Designer with hands-on experience in mobile app design and in-app assets. Strong in visual design, design systems, and creating clear, intuitive interfaces based on product requirements. Eager to learn, grow, and contribute to meaningful digital products.

Experience

Fresher UI/UX Designer

Lutech Digital | Aug 2025 - Apr 2026

- Collaborated with BA and PO teams to design UI for 7 new mobile applications.
- Worked with Product Owners and Business Analysts to develop and refine UI based on product requirements.

Intern Graphic & UI Designer

090Bravo Global | Apr 2025 - Jul 2025

- Designed UI and in-app visual assets for mobile applications.
- Created icons, app screenshots, advertising visuals, and promotional videos to support marketing and user acquisition.

Notable projects

Logo Maker Mobile App UI/UX Design

Designed a logo creation app with an intuitive workflow and a cohesive UI across Light and Dark modes.

DJ Music Mixer – Mobile App UI

Designed a dynamic music mixing app with intuitive controls and a visually engaging interface.

Skyways Airlines App – UX/UI Case Study

Designed a fictional airline booking app, taking the experience from research and user flows to final UI design.

App Store Visual Design – Icon & Screenshot

Designed app store assets, including the app icon, screenshots, and feature graphics.
